

# Introduction and guide to Common Fungi

**Sunday 3rd October 2010**

**9.30 to 16.30**

## About the Course:

Well over 1,200 species of fungi have been recorded from Epping Forest, some of which are easily recognised. This general interest course will focus on how to identify mushrooms and toadstools in the field, their role within broadleaved woodlands and the basic tips for identification of some of the commonly found species. A digital camera is a useful recording tool and x10 lens is invaluable to help examine the details of the specimens found.

This Fungi course runs from 9.30am to 4.30pm and includes lunch at a local public house.

If you have not already booked on this course please contact the centre.

The Centre's purpose built facilities offer superb opportunities for field study in the heart of Epping Forest.

All of our courses are led by experienced Tutors selected for their knowledge and expertise as well as their relaxed and friendly manner

## Epping Forest Field Centre

**Tel: 020 8502 8500**

**Address: Paul's Nursery Road, High Beach,  
Loughton, Essex, IG10 4AF**

**Fax: 020 8502 8502**
