

Key Stage 4 WJEC B Geography *Controlled Assessment, 1day*

Students will have an opportunity to extend research and undertake fieldwork in an appropriate environment in order to prepare their portfolio to take forward to the high control 'write up' phase of their controlled assessment. The field work will be based on the pre-released titles from WJEC B.

This day course will focus on the collection of data in the field and provide additional background research material for the creation of a portfolio.

COURSE CONTENT

The focus for the selected study will change annually to meet the requirements of the controlled assessment and to match WJEC's set title.

CHOOSE ONE TOPIC FROM THE LIST BELOW TO PREPARE FOR THE CONTROLLED ASSESSMENT

Landform Interactions: Rivers

This river investigation will include a study of a variety of river landforms and the processes which have created them. Students will also cover content from the Landform Interactions element of Theme 2 (People and the Natural World Interactions).

Landform Interactions: Coasts

This investigation explores physical processes and landforms, relating them to the management of a local stretch of coastline. Students will also cover content from the Landform Interactions element of Theme 2 (People and the Natural World Interactions).

Challenges of Living in a Built Environment: Urban

This enquiry focuses on the variation in quality of life, housing quality and environmental quality in an urban area. Students will also cover content from the Living in Residential Places element of Theme 1.

LEARNING OBJECTIVES/OUTCOMES

Learning Objectives	Learning Outcomes
<ul style="list-style-type: none"> Gain case study knowledge of the environment investigated <p>Learning Objectives related to the Controlled Assessment:</p> <ul style="list-style-type: none"> Gain greater understanding of different approaches to primary data collection Consider how data can be presented Understand the different stages through a route to enquiry, including a pre-fieldwork phase setting up the study, fieldwork, data presentation, analysis and evaluation 	<p>All students will:</p> <ul style="list-style-type: none"> Identify questions and issues which form the basis of the investigation Carry out fieldwork in the outdoor classroom, collecting data for the controlled assessment Describe different data collection techniques Collect a variety of information, first hand, including quantitative and qualitative data <p>Most students will:</p> <ul style="list-style-type: none"> Use GIS information to aid the enquiry process Use OS maps and aerial photos to aid the investigation Identify limitations with the investigation and data collection methods Use field sketches/photos/maps <p>Some students will:</p> <ul style="list-style-type: none"> Identify relevant questions and issues Independently identify a sequence of investigation Use OS or digital maps and aerial photos to present data/information Consider ways of improving the investigation Consider anomalies in data collected and explain why they might have occurred

FSC CENTRES

FSC Centres that offer this course:

		Coasts	Rivers	Urban
AM	Amersham 01494 721 054		✓	✓
EF	Epping Forest 020 8502 8500	✓	✓	✓

TO BOOK THIS COURSE, SIMPLY:

1. Choose the time of the year you would like to attend
2. Pick the centre/centres of interest
3. [Check availability online](#) or contact head office using the details at the bottom of the page or contact the centre of your choice

**Please note to book this course the minimum size of your group must be 12 students and 1 member of staff*
