FIELD STUDIES COUNCIL: BACKGROUND INFORMATION

Field Studies Council (FSC) is an environmental education charity providing informative and enjoyable opportunities for people of all ages and abilities to discover, explore, and understand the environment.

Our Mission is to bring environmental understanding to all.

Our Vision is inspiring environmental understanding through first-hand experience

What we believe -

FSC believes that the more we understand about and take inspiration from the world around us the more we can appreciate its needs and protect its diversity and beauty for future generations.

In all we do, we are committed to:

- **Delivering first hand experiences.** FSC uses the environment to inspire. Taking in its sights, sounds and smells has the ability to motivate, deepen knowledge and broaden horizons.
- **Providing opportunities for everyone.** FSC strives to provide opportunities for everyone regardless of age, ability or background.
- **Sustainability for the future.** A commitment to the environment is at the heart of everything FSC does: how we run the charity, what people learn on our courses and through our publications.
- **A caring attitude.** From the way we treat our customers, our staff, the environments we work in and the feel of our locations, FSC demonstrates a personal approach with great care taken in everything we do.

What we do -

For more than 70 years FSC has touched the hearts and minds of people of all ages through courses at our network of learning locations, work overseas and the production of resources. Each year over 140,000 people experience FSC many through a visit to one of our learning locations

- Learning outside the classroom experiences with their school, college or university
- Professional training courses for environmentalists and teachers
- Natural history courses
- Identification guides and free resources
- Funded projects both in the UK and abroad
- Art courses
- Family holidays
- Campaigns for the right to outdoor learning and fieldwork

Some of the FSC's proudest moments have arrived when trying to reach those who would not be able to have an FSC experience without some help. In 2014, thanks to FSC members and donations from individuals and Trust Funds, we were able to provide support for over 1000 young people who otherwise would not have been able to take part.

Despite all that we have achieved so far, we hope to provide even more opportunities for people of all ages and abilities to discover, explore and understand the natural world. However, as an Investors in People charity, we realise we can't achieve this without staff that have a real passion for the work of the charity and a pride in their role within it. Every role in the charity is vital to delivering its mission and vision – if this inspires you and you meet the requirements of the post we would love to hear from you.

FSC London Region

The FSC London Region consists of FSC Juniper Hall, FSC Amersham, FSC Epping Forest and across the city including The Royal Parks. FSC Juniper Hall is a residential field centre, whilst the others are non-residential centres. This means that there are a very high number of students taking part in learning experiences across the region, with over 50,000 learners attending courses across the region annually. The London Region attracts a large number of groups from across the UK and internationally.

Across the region the FSC also has many partnerships that include the National Trust, National Grid, City of London, The Royal Parks and London Legacy Development Corporation. This continues to grow and will expand over the coming years in new projects and developments across the region.

FSC Epping Forest

FSC Epping Forest is situated in the heart of Epping Forest. A Site of Special Scientific Interest (SSSI), Epping Forest is nationally important for its wildlife. The forest is on the border of Greater London and has excellent transport links (Central Line for Underground Services into London and close to the M25 and M11). The Centre is managed by the Field Studies Council on behalf of the City of London Corporation, and was established to commemorate the European Year of Conservation in 1970.

The Centre specialises in connecting people of all ages with the natural environment by providing safe and enjoyable learning experiences in Epping Forest and the surrounding area. Through first hand investigations and discovery, the Centre aims to realise the FSC's mission to bring environmental understanding to all. It is a non-residential centre that provides courses for learners of all ages, from toddlers to pensioners.

In addition to its main work, providing fieldwork for schools groups, the Centre offers Eco activities (which include family courses, 'drop in' days and holiday activities for children), Leisure Learning courses for adults and a range of community and outreach activities in association with many partners.
