FIELD STUDIES COUNCIL: BACKGROUND INFORMATION

Field Studies Council (FSC) is an environmental education charity providing informative and enjoyable opportunities for people of all ages and abilities to discover, explore, and understand the environment.

Our Mission is to bring environmental understanding to all.

Our Vision is inspiring environmental understanding through first-hand experience

What we believe -

FSC believes that the more we understand about, and take inspiration from, the world around us the more we can appreciate its needs and protect its diversity and beauty for future generations. In all we do, we are committed to:

- ***Delivering first hand experiences.*** FSC uses the environment to inspire. Taking in its sights, sounds and smells has the ability to motivate, deepen knowledge and broaden horizons.
- ***Providing opportunities for everyone.*** FSC strives to provide opportunities for everyone, regardless of age, ability or background.
- ***Sustainability for the future.*** A commitment to the environment is at the heart of everything FSC does: how we run the charity, what people learn on our courses and through our publications.
- ***A caring attitude.*** From the way we treat our customers, our staff, the environments we work in and the feel of our locations, FSC demonstrates a personal approach with great care taken in everything we do.

What we do -

For more than 70 years, FSC has touched the hearts and minds of people of all ages through courses at our network of learning locations, work overseas and the production of resources. Each year over 150,000 people experience FSC, many through a visit to one of our learning locations:

- Learning outside the classroom experiences with their school, college or university
- Professional training courses for environmentalists and teachers
- Natural history courses
- Identification guides and free resources
- Funded projects, both in the UK and abroad
- Art courses
- Family holidays
- Campaigns for the right to outdoor learning and fieldwork

Some of the FSC's proudest moments have arrived when trying to reach those who would not be able to have an FSC experience without some help. Thanks to FSC members and donations from individuals and Trust Funds, each year we are able to provide support for over 1000 young people who otherwise would not be able to take part.

Despite all that we have achieved so far, we hope to provide even more opportunities for people of all ages and abilities to discover, explore and understand the natural world. However, as an Investors in People charity, we realise we cannot achieve this without staff that have a real passion for the work of the charity and a pride in their role within it. Every role in the charity is vital to delivering its mission and vision – if this inspires you and you meet the requirements of the post we would love to hear from you.

FSC's Pembrokeshire Centres

Since January 2012, the FSC's two Pembrokeshire Centres, Dale Fort and Orierton, have been working under a shared management structure. Staff from both centres have a range of opportunities to work at the other centre on various teaching and non-teaching related tasks.

FSC Orierton was established in 1963 to provide high quality residential and day courses for learners of all ages. The main house is an elegant Georgian mansion set in 48 hectares of wooded grounds; we have 120 beds, and each year we welcome over 3000 residential visitors who stay for up to a week. In a separate building we also have 5 classrooms, library and ICT facilities. The Centre is located about 4 miles from Pembroke town on the edge of the Pembrokeshire Coast National Park.

The Centre runs a variety of hands-on courses for school students and undergraduates and some leisure and professional courses for adults and families, taking advantage of the excellent range of habitats nearby. The majority of our learners are studying geography, ecology or environmental studies and we have an experienced team of tutors who deliver courses to meet the requirements of learners.

FSC Dale Fort is a converted Victorian military fort set on a rocky promontory at the entrance to Milford Haven in the Pembrokeshire Coast National Park. It has unrivalled and spectacular views over the sea and is close to some of the most magnificent scenery in Wales. Located within the newly designated Special Area of Conservation the Centre has easy access to unsurpassed sites for investigating marine biology. It is ideally located to explore seashore, freshwater and inland habitats. Visits are easily made to the off shore islands of Skomer and Grassholm. Both are National Nature Reserves with spectacular seabird colonies.

The Centre has 140 beds, and each year we welcome over 3000 residential visitors, ranging from KS2 school children, through to GCSE, A level and University groups and individual adults and families who attend our leisure learning courses.

If you would like to find out more information about these two FSC Centres please visit: www.field-studies-council.org and go to learning locations.
