

What happened to the holly leaf-miner?

SHEET 3 – ANALYSIS AND EVALUATION OF RESULTS

Conclusions

1. Describe the differences that your results show in leaf size and internode length between sun shoots and shade shoots.

.....

.....

.....

2. Suggest why there are differences between sun and shade shoots in
(a) leaf area

.....

.....

.....

(b) internode length

.....

.....

.....

Evaluation

3. Can you think of any other reasons why nettle leaves vary in size?

.....

.....

.....

4. Suggest one way you could extend the investigation if you had more time.

.....

.....
