

Fieldwork Method 1: **Species found in the freshwater habitat**

- Complete this table with key information on two species which are found shared during the live lesson pond dip.

	Species A	Species B
Name		
Size		
Key identifying features		
Adaptations		
What does it eat?		
Space to draw your scientific diagram		

Don't forget to go back to Task 5 in the Pre-lesson preparation to see if your predictions were correct.
