

1. Colour in your ladybird (dont forget to add spots).
2. Cut out the pieces below.
3. Find the matching numbers and poke a split pin through the black dots to connect the layers
(The elytra, or wingcases, need to be above the wings).
4. Add glue to the grey areas to join the abdomen and legs.

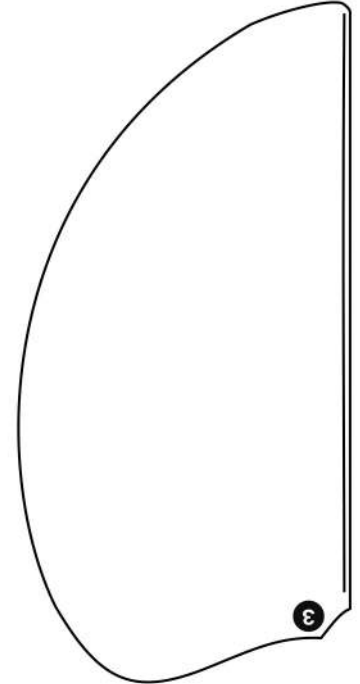

Legs

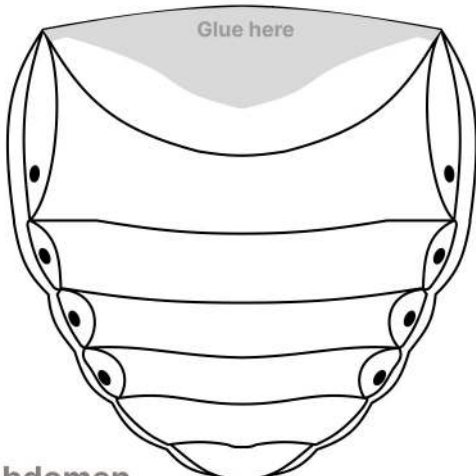

Elytron 1

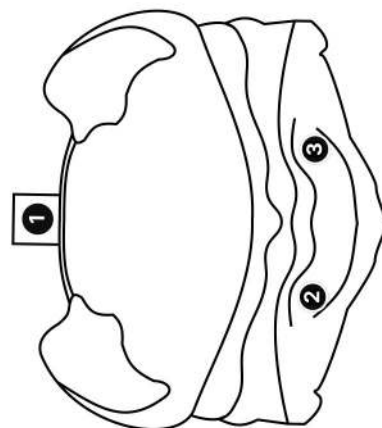

Elytron 2

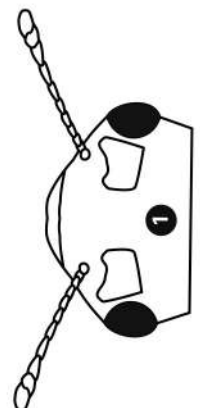

Wings

Abdomen

Thorax
